Half a Million People

COMPELLED TO WALK IN CHICAGO ON ACCOUNT OF THE STRIKE.

THE WEST SIDE MEN GO OUT TO AID THE NORTH SIDE STRIKERS.

Non-Descript Vehicles Do a Running Business, While the Cars Run By the Street Car Company Have But Few Passengers Except the Guard of Blue-Coated Police. Every Precaution Taken By the Authorities to Preserve Order and Prevent Violence.

CHICAGO, Oct. 10.—The West Side street car system, with its twenty or more branches, comprising nearly five hundred cars and employing nearly two thousand men, was tied up at 1 o'clock a. m.

This action was decided upon at a meeting of the West Side division employees, which lasted all night. At 9 o'clock Monday night the committee of the West Side men met at the mayor's office.

Mr. Yerkes was present with his lawyer. Mayor Roche was present, and the corporation counsel mayor was constituted a sort of arbitration and the matter discussed pro and con.

For the first time in controversy Mr. Yerkes agreed to establish the hourly system of pay. To horse car men who demanded twenty cents he was willing to pay twenty cents.

After a long discussion it was discovered that no possible settlement could be reached, and at 1 o'clock the parties separated. The committee hastened to the hall on the West Side.

The assembled men then sent to Mr. Yerkes an ultimatum, stating that all North Side men would resume work at twenty-one, twenty-three and twenty-six cents an hour for horse cars, trailers and grips respectively, all new men to be discharged.

The committee appointed to deliver this message to Mr. Yerkes returned at 3:36 with the reply that Mr. Yerkes at first refused to accede to this proposition, and then asked time for consideration until morning.

This reply was received with cries of derision, and a strike on the entire west division was declared to take place immediately.

By this extension of the strike to the west division two-thirds of the residence districts of the city, containing in the aggregate fully six hundred thousand souls, are practically cut off from all means of reaching the business section except by foot.

On the North Side the effort to accommodate the residents of the extreme northern sections was resumed at 7 o'clock, cars being started from the Larabee and "limits" barns. As was the case Monday, they were sent out in a solid line preceded by a patrol wagon packed with officers, and with a detail of ten riding on each car. Very few of the public, however, availed themselves of the opportunity to get down town, and on the return trip there were but two passengers to twelve cars.

The nondescript vehicles, on the other hand, did a thriving business while the sidewalks were packed with people, encouraged by the beautiful fall weather, to walk to their places of business. Here and there a cry of "scab" or "shame" was heard as the cars went by, but the hostile demonstrations were neither numerous nor generally participated in. The North Side strikers began to congregate in the vicinity of the barns soon after daylight, and when the news was received that the men on the West Side had gone out there was great cheering and other demonstrations of satisfaction.

Up to 9 o'clock no effort had been made to start any cars on the West Side, and Manager Parsons says unless there is a change in his programme he will let well enough alone until the North Side trouble has been adjusted.

At a late hour Monday night notices were sent to all men who had applied for positions on the police force to report for duty in the morning.

All substitutes are now traveling beats, while regular officers are on reserve.

Up to 11 o'clock no report of any trouble either at the North or West Sides had been received. No cars are running on the West Side, and very few thus far been started on the North Side. They were guarded by the police, but they had nothing to do.

The strikers contented themselves with merely expressing their opinions in regard to the men who had taken their places. All through the morning hours the sidewalks were crowded with people on foot in both divisions of the city, which, taken together, contain nearly three-fourths of the city's population.

It is reported that Mayor Roche has again sent for Mr. Yerkes with the view of inducing him to submit the dispute to arbitration. The West Side committee is still awaiting a response from Yerkes to the proposition sent him. All the private detectives were withdrawn from the North Side barns at 10 o'clock.

The management of the west division line have finally determined to make no attempt to send out cars to-day unless the men decide to resume work of their own volition. This decision, which was arrived at after a long conference between the officials and the police authorities, will practically obviate all possibility of riots or disorder in the western sections of the city, and notwithstanding the resultant inconvenience it is hailed with satisfaction by the law-abiding element.

The celebrated "black road," Halsted street viaduct and other localities that have been the scenes of blood riots in the past, are in this division, and with a large proportion of the police force, concentrated on the North Side, any attempt to resume the traffic would, in the opinion of those participating in the conference, have been fraught with serious consequences. As it now, however, there is nothing to provoke trouble.

Struck Against a Reduction. GARDNER, Mass., Oct. 10.—About two

hundred men, mostly young men, and ruffian works have struck against a 30 per cent. reduction in wages.

BASE BALL ENTHUSIASTS.

A Large Number Will Accompany A. G. Spaulding to Australia.

CHICAGO, Oct. 10.—A. G. Spaulding has all but finished the multiplicity of details attending the successful inauguration of the Australian trip of the Chicago and all American ball clubs. The latest arrangements to date contemplate the following program: The players under contract are: Chicago—Anson, Burns, Pfeffer, Williamson, Ryan, Sullivan, Daly, Pettit, Baldwin and Tenor, all Americans; Ward, of New York; Capt. Hanlon, of Detroit; Wood, of Philadelphia; Kelly, of Boston; Carroll, of Pittsburgh; Tiernan, of New York; Healy, of Indianapolis; Donnelly, of Washington, and Timpon, of Newark. Carroll and Kelly are the two catchers. Healy and another man, yet to be engaged, are the pitchers. The men will report at Chicago, October 20, with the possible exception of Ward and Tiernan, who will be employed a few days in the New York and St. Louis world series. The two clubs will play a farewell game at Chicago, October 20. The first regiment cavalry band of Chicago will escort the players to the field and then to the station, where the boys will embark in a special palace car St. Paul.

The clubs will play at St. Paul October 21; Minneapolis, 22; Cedar Rapids, 23; Des Moines, 24; Omaha, 25; Hastings, Neb., 26; Denver, 27 and 28; Colorado Springs, 29; Salt Lake City, 31 and November 1; Sacramento, 3; San Francisco, 4, 11 and 17, and will sail from San Francisco the 17th. The players are to be escorted from the grounds direct to the boat. They possibly will play at Los Angeles November 14 and 15, and the rest of the time on the Pacific coast with local clubs. The steamer will stop long enough for one game at Honolulu and Auckland by special contract.

The opening game in Australia will be played at Sydney about December 15. Then the club will travel to Melbourne, Adelaide and other prominent Australian cities. Spaulding is receiving constantly applications from base ball players of every sort and condition to be permitted to join the Australian tour. So many "pay passengers" have already applied for passage that it looks as though the steamer Alameda would be crowded to the guards when she leaves San Francisco.

TRAGEDY AT KNIGHTSTOWN, IND.

To Conceal a Theft N. B. Wade Kills His Ward and Mother and Suietides.

KNIGHTSTOWN, Ind., Oct. 10.—Early Monday morning fire was discovered at the residence of Mrs. Sarah Hoggins, in the southern part of town. The door was burst in, and there was found N. B. Wade, at the bed of his mother, Mrs. Hoggins, and nearly suffocated from smoke. He died soon after. His mother was found dead in bed. Mrs. Martha Cates, who had been living at Mrs. Hoggins', was not discovered until partly burned up. The fire had obtained great headway, and but little was saved.

The theory is that Wade murdered his mother and Mrs. Cates to hide a crime. Mrs. Cates was granted a pension, with \$1,500 back pay, in the year 1874, and since then has been receiving \$12 per month. Wade made her believe that he was her guardian, she having no relatives, and he has had control of her money, she only receiving \$30 up to this time.

The pension agent was here Saturday look-up the matter, and gave Wade until Monday to arrange things. This so preyed upon him that he committed the murder and then suicided.

Wade and his wife occupied a residence near the center of the town, but Sunday night he went down to his mother's to see after her wants.

At the coroner's inquest over the body of Mrs. Cates they found that her throat had been cut and she had been stabbed in the heart. She also had a deep cut in her arm. Wade's stomach was examined, and a large quantity of paris green found therein. An empty vial and sharp pointed shoe knife were found in his pockets. The remains of his mother showed that she had been suffocated.

Twenty-Six Horses and Two Men Burned.

NEW YORK, Oct. 10.—A long row of frame sheds used for stabling purposes, extending from Nos. 404 to 410 East Thirty-fourth street, owned by D. D. Whitehouse and rented by Michael McGuire, were burned shortly after 2 o'clock a. m., together with twenty-six horses, a quantity of harness and a number of vehicles. Thomas Carr and John Roach, two young men employed by Koominsky Brothers, expressmen and news-dealers, and who slept in the stable, were caught in the flames. Carr was burned to death. Roach succeeded in reaching the street, but is so badly burned that the doctors do not believe he can survive. The loss to property is estimated at from \$15,000 to \$20,000.

Mormon Church Dissolved.

SALT LAKE CITY, Oct. 10.—The supreme court of Utah to-day entered final judgment and decree in the case of the United States against the Mormon church, dissolving the church corporation, ordering the personal property to be forfeited to the government, and the real estate to be held by the receiver until the conclusion of proceedings brought by the government for its forfeiture, and declaring that the new Mormon corporation claiming to succeed to the property of the church, is only entitled to the temple and buildings actually used for worship. It is a complete victory for the government.

Packing House Burned.

CHICAGO, Oct. 10.—Schuneman's packing house, corner of Archer avenue and Salt street, was totally destroyed by fire at an early hour. The building was a three-story brick and was used as a packing house and butchery factory. The fire originated in the butchery factory, and is supposed to have been caused by the overturning of a kerosene lamp. The loss is estimated at \$125,000, and is said to have been covered by insurance.

Died While Shouting.

XENIA, O., Oct. 10.—Lydia Washington, aged eighty-four years, was at the colored Wesleyan church, and participated in the services, speaking and shouting in an unusually happy way. While engaged in shouting she sank into her seat and died. Aunt Lydia was famous about Xenia for being the mother of twenty-two children.

The Epidemic Broken.

ONLY FIFTY NEW CASES AND FOUR DEATHS MONDAY.

THE SOUTH MAY BE YEARS RECOVERING FROM THE BLOW

Which She Has Sustained By the Yellow Scourge—A Man, With His Wife and Two Children, Die From Disease, Starvation and Exposure on Account of the Shotgun Quarantine.

JACKSONVILLE, Fla., Oct. 10.—There were fifty new cases of fever Monday and four deaths.

The people are much cast down by the recent loss of prominent citizens. Now that the epidemic is broken, the people begin to look to the future, many fear that the city and state will be years in recovering from the severe blow that has been sustained. It is feared that the coming winter season will be a dull one.

The regular physicians are taking steps to prosecute the promoters of the electric system of medical treatment. The claim that the treatment has left those to whom it was applied so weak that when regular physicians were called they were unable to help the patients.

The Masonic relief committee here has issued a card to the fraternity throughout the United States, thanking them for assistance furnished and stating that no more funds are necessary.

An Awful Story From Alabama.

NEW YORK, Oct. 10.—The World's special from Birmingham, Ala., says: The shotgun quarantine has resulted in the death of four people in Marshall county. When the yellow fever broke out at Decatur among the refugees who left were Charles Parker and his wife and two small children. Parker was a carpenter, and had little money. He had relatives near Oak Mountain, and decided to go there. When within fifteen miles of the house he was confronted by the shotgun quarantine guards. He could not obtain shelter. After being driven away from a number of houses Parker and his family camped at a spring at the foot of the mountain. That was the last time they were seen alive, as the people in the neighborhood would not go near the camp.

Sunday a physician heard of the circumstance and determined to ascertain the fate of the family. On reaching the spot he was horrified to find the dead and decomposing bodies of Parker and his family. Parker and his wife had evidently died of yellow fever, while the two children, about two and four years old, it is supposed, died of starvation and exposure.

ATTEMPTED ASSASSINATION.

An Editor and Two Other Men Shot By Two Southern Desperadoes.

ANNISTON, Ala., Oct. 10.—An attempt was made Monday to assassinate W. H. Edmonds, editor of the Hot Blast, who has been aggressively advocating a rigid enforcement of the prohibition laws.

A week ago four ex-policemen, who had been discharged for inefficiency, waylaid Editor Edmonds, and one of them jumped on him and beat him severely. Mr. Edmonds making such resistance as he could. An outrageously false account of the affair was sent to the Montgomery Dispatch, reflecting seriously upon Mr. Edmonds, who replied through the Dispatch, pronouncing the author a liar, and charging him with cowardice in sending forth such a falsehood unsigned. It was developed that the correspondent of the Dispatch was J. S. Lawrence, a justice of the peace.

Monday afternoon, Lawrence, accompanied by Will Lacey, entered the Hot Blast office. Lawrence and Lacey called Edmonds outside and demanded a retraction. This was refused. Lacey then opened fire on the editor with a revolver. He was shot in the left arm. The weapon missed fire the second time, which probably saved Edmonds' life. The would-be assassin then fired at two men in the newspaper office. Coppell, the mailing clerk, was shot through the neck, and the other, A. Tripney, who was merely in the office on business, received two wounds in the head, both serious.

The two desperadoes were subsequently captured. Indignation ran high, and there was strong talk among the citizens of lynching them.

Free Industrial School.

PHILADELPHIA, Oct. 10.—Isaiah V. Williamson, a wealthy merchant and well known philanthropist, has decided to endow a great industrial school in this city where boys can be educated and taught some trade free of expense. Mr. Williamson says that the plans have not yet been completed. It is his intention to place the matter in the hands of trustees. They will be men who understand such matters and will work out the plans themselves. The amount to be devoted to the work is not yet known but will, it is said, be several million dollars.

Miss Willard Criticized.

MINNEAPOLIS, Minn., Oct. 10.—A meeting of the orthodox ministers of Minneapolis was held Monday, at which crimes against mothers and infants were discussed. The Rev. Mr. G. Jensen said that a mother of a family is worthy of more praise than Miss Frances Willard, the leader of the Women's Christian Temperance union. Dr. Burrell said that Miss Willard had done the cause of temperance irretrievable injury by assuming a man's place. A woman, he said, should not go into the pulpit, and when she does so she weakens her cause.

Adventures of a Hoosier Boy.

WABASH, Ind., Oct. 10.—Henry Strouem, son of A. Strouem, of New Paris, who was believed to be a prisoner in the Philippine Islands, has just been heard from in a letter from the consul at Manila, stating that Strouem, regarding whose whereabouts nothing had been heard by his parents since last April, arrived safely at Manila August 11, having been on the Island of Gamu in captivity for 180 days. He left Manila August 13 for Hong Kong, China, from which place he has written his parents. The young man had a thrilling experience while in captivity among the cannibals.
